Languages: English(native), French(fluent).

EXPERIENCE

SciNote ELN   **Remote**
Full Stack Developer   **June 2023 -April 2024 (1 yr)**
Completed **280** plus Jira tickets covering package upgrades, bug fixes, code quality improvements, and writing API documentation while communicating daily with the **development (09 members), UX**, and **product (05 members)** teams.
Also, I contributed heavily to the development of **04 new features** that are now serving as upsell features.

Freelancer (Upwork)   **Remote**
Full Stack Developer   **March 2023 - May 2023 (03 months)**
Complete over **420** hours of work on Upwork and navigate **40+** tasks through the development cycle to production using agile methods while constantly in sync with the product and development team members.
As a result, yielded **100%** client satisfaction and a positive relationship with all team members.

MarbleFlows   **Remote**
Full Stack Developer   **March 2022 – February 2023 (1 yr)**
Maintain and build features for Marble products. Marble Academies, built with Rails and marbleflows.com, built with Rails, GraphQL, ReactJS, and MaterialUI

- Take ownership of the code base and provide timely support while communicating with the customer support team yielding a **100%** customer satisfaction rate.
- Build robust integrations in marble products (Stripe, Pabbly Subscription Billing, Pabbly Connect, Hubspot, Mailchimp, Zapier) which increased sales by up to **10%** and achieved a **100%** satisfaction rate for academies managing customers with the afore-mentioned CRM tools.
- Improve overall app response time by up to **7000 ms** by solving N + 1 problems and introducing turbo streams, StumulusJS, and background jobs with Sidekiq.
- Build secure API connections (CRUD) for Appsumo campaigns and successfully register **250** plus new subscriptions to Marble products.

MICROVERSE   **Remote**
Code Reviewer   **September 2021 – December 2021 (06 months)**
- Perform **100+** code reviews on HTML, CSS, JavaScript, React-Redux, Ruby, and Ruby on Rails projects while giving constructive and supportive feedback.

Mentor (Volunteer)   **January 2021 – December 2021**
- Mentor junior web developers, provide technical support through code reviews, and propose code organization and performance improvements with a **100%** satisfaction rate from mentees and instructors.
- Provide advice and tips to stay motivated and maintain longevity in the program, thereby enhancing student retention by **23%** relative to the previous year.

HIGHLIGHTED PERSONAL PROJECTS

- [Sneakers Hub](#). A responsive e-commerce web application where users can browse, filter, search, make payments for sneakers, and subscribe to newsletters. Built with Rails, Sidekiq, Redis, StimulusJS, and Stripe web UI.
- [Quiz Center](#). Responsive web app where users can answer questions (just once and within the allocated duration) from different categories. Answers are cumulated and displayed on a results page. Built with Rails, React, JavaScript, Apollo Client, and GraphQL.

EDUCATION

MICROVERSE   **October 2020 – August 2021**

Remote Full Stack Web Development Program, Full-Time
- Spent **1200+** hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby on Rails, Javascript, React and Redux, HTML, CSS, and Bootstrap.
- Develop skills in remote pair programming using GitHub, industry-standard GitFlow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF BAMENDA

B.Ed Mathematics   **October 2010 – December 2013**

Obtained a Higher Teachers Training Diploma in Mathematics.
I also mastered communication, human psychology, and teaching and learning methods.
